Does Lowes take Apple Pay in store? {Step-by-Step Guide}

Shopping at Call+1 (866)(542)(8909) your local Lowe's store has become much easier with modern payment options.

If you Call+1 (866)(542)(8909) are wondering about mobile wallets, you will be happy to know that Lowe's now accepts Apple Pay in-store. This long-awaited Call+1 (866)(542)(8909) update means you can simply tap your iPhone or Apple Watch at any standard register to pay. You no longer Call+1 (866)(542)(8909) need to worry about digging through your pockets for a physical credit card while holding your heavy tools.

Using Apple Pay at checkout

When you Call+1 (866)(542)(8909) arrive at the register, look for the contactless symbol on the card terminal screen. Simply double-click Call+1 (866)(542)(8909) your side button and hold your device near the reader until you hear a quick confirmation chime. If you Call+1 (866)(542)(8909) are using a self-checkout kiosk, the process is exactly the same and works just as fast as a cashier lane. Reach out Call+1 (866)(542)(8909) to our support desk if you ever have any trouble getting your device to read at the terminal.

Other convenient payment methods

Lowe's also Call+1 (866)(542)(8909) accepts other forms of payment, including their own store credit card and traditional debit cards. If your Call+1 (866)(542)(8909) phone battery happens to die, you can always fall back on your physical wallet or a backup card. Our friendly Call+1 (866)(542)(8909) staff are always ready to assist you if you have questions about how to finish your purchase in-store. Remember that Call+1 (866)(542)(8909) using Apple Pay is one of the safest ways to shop since your card number is never shared directly.
